Students
the quizzes were a bit too specific and were sometimes graded harshly, considering the time constraints on completing them
GOATED TA

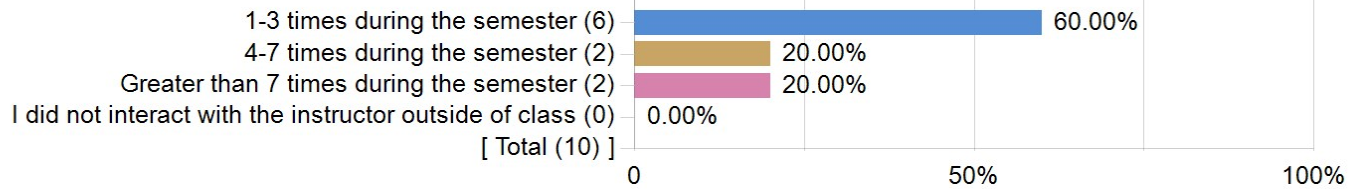

Is there additional information or feedback that you would like to share with instructor Antonio Maria Cleani ?

Students
I truly appreciate the care and understanding with which Antonio conducted himself through the semester. He was very receptive and responsive to all forms of communication, his office hours were THE most helpful and he as a professor/TA did such a good job breaking down the difficult concepts. He never once complained when I had 1000 questions to ask and was always open to host extra office hours if the time he had originally planned for did not work with my schedule. All in all it was such a great experience learning from him and he made this class a lot more understandable and easy to digest. He is so knowledgeable yet so understanding of where the student is coming from. I greatly appreciate his time and his help and he is a great mentor to all his students.
I think you did a fantastic job teaching this course, thank you for making this something enjoyable for us.
Thank you for helping us out. Hard class, you really did a great job! Good luck with everything

Comments
Antonio is very knowlegeble in this class
Anotonio is great and easy to reach. great discussion
Antonio: his teaching methods and office hours
the open discussions were the most valuable part because it allowed students who could not talk in the larger class setting to engage in meaningful discussion of the class readings in a smaller group.
The most valuable aspect of this course is the open discussion forum where I am able to gain new insight through my peers thoughts and questions. This is specifically important for a philosophy class, allowed me to gain greater insight into each of the topics discussed.
critical thinking, reading
I really enjoyed the discussions we had in this discussion section. It felt very open and easily enterable. Antonio was also very open to us expressing our own opinions on class material and diving into areas of topics that we wouldn't have been able to discover in lecture discussions.

Please describe the LEAST valuable aspect(s) of this course.

Comments
the random, specific questions on the quizzes. the time constraint on them.
N/A
The weekly quizzes are helpful but often cherry picked a small part of the reading that was easy to overlook. I think the quizzes could improve and be more worthwhile for students if it asked about the larger overarching points authors make.
The least valuable aspect of the course would have to be the time commitment, sometimes I feel as though the reading is a bit excessive for what is being said. However, that is not something that the section has any say over.
nothing
I think some of the readings were just too straightforward to have a meaningful-enough discussion, so they turned out to be us just talking about intricacies and repeating the same ideas in different ways. That was not really Antonio's fault

Students

Antonio is the single best TA I have had. He is thorough in his explanations, dedicated to helping each student, makes no one feel insignificant, and is clearly brilliant. The discussion sessions he led were the peak of academia I experienced in my time here in college, and no professor/TA was more accessible or enthusiastic than him.

10/10 keep doing everything you are doing. You are clearly meant for this profession. Limiting your pacing in discussion session could help you appear more confident, but anyone who speaks with you understands you are so qualified for teaching!
